(TM250 - TM165 - TM5)

### Finissaggio consigliato

Lavare delicatamente le maglie rovesciate a 40°C con  
detergente neutro. Centrifugare alla massima velocità.  
Tumble dry a temperatura compresa fra 60°C e 70°C.  
Stirare con minimo di pressione e abbondante vapore.

### Attenzioni particolari

È importante che la maglia risulti ben battuta: ciò permette  
di esaltare al massimo le qualità tecniche (lavabilità in  
lavatrice e asciugabilità in tumbler) ed estetiche (pulizia  
di superficie e stabilità delle forme) del capo. Consigliamo  
prove preventive di tessitura e finissaggio.

### Special notes

To exalt the technical (machine washable and tumble
